BACKGROUND INFORMATION

This application claims priority under 35 U.S.C. 119 from PCT/GB00/02302 (WO 00/76971, Document (B4)), which has entered the U.S. national stage as U.S. patent application serial number 09/926,712. The predecessor company of Protherics Molecular Design Limited was Proteus Molecular Design Limited.

This application forms part of a portfolio of patent applications directed to serine protease inhibitors, some of which belong to Eli Lilly and Company, and some of which belong to Tularik Limited. The history of this portfolio traces back to a research project on serine protease inhibitors started by Proteus Molecular Design Limited. The undersigned is responsible for handling the applications in this portfolio.

A listing of the co-pending applications and patents in the portfolio is attached.

Eli Lilly and Company also owns a separate portfolio of applications and patents relating to serine protease inhibitors. PCT references belonging to this portfolio are listed in the attached form PTO/SB/08A. Generally these PCT references have U.S. counterparts.
